EXPERIENCE

Mobile Developer
HR Management Mobile Version
12/2022 - 01/2023

Developed Mobile Version HR Management Base on API From Laravel using Flutter 3.0

Fullstack Website Developer
HR Management Website Version
04/2022 - 08/2022

Developed HR Management Project with Laravel Vue JS for my final project in Diploma

Study Independen (UI/UX Design)
PT Nongsa Digital Park (Remote)
02/2022 - 07/2022

During my participation in the independent study program provided by Kampus Merdeka, I focused on learning Java Programming for Android Development and Learn how to Design UI/UX for Application. As part of our independent study project, our team collaborated on a project, and my role was as a UI/UX Designer.

Internship Back End Developer
PT Oemah Solution Indonesia
08/2021 - 01/2022

- Developed custom services to manage application state and communicate with back-end APIs
- Developed database design and implement to our project
- Using Laravel as a back-end web developer like routing Laravel provides a flexible routing system that allows developers to define application routes and map them to the corresponding controller actions.
- Database Integration using the ORM that Laravel has provided.

Informatics Engineering
University Of Sebelas Maret
2022
Diploma

Graduated with cumlaude Predicate

SUMMARY

I am an enthusiastic individual who is thirsty for knowledge and constantly seeks self-improvement. Honesty is a core value that I uphold in my life. I hold a D3 degree in Information Technology and am currently pursuing my S1 degree to enhance my skills and abilities. I have previous experience as a back-end developer during a 6-month internship and also spent 6 months engaging in independent study on mobile development and cloud computing. Currently, I am expanding my knowledge in machine learning and data science as part of my ongoing S1 education. With the knowledge and experiences I have gained, I am particularly interested in pursuing a career in junior web development or machine learning engineering.
